IDENTIFIERS	*Maryland

ABSTRACT

This report presents enrollment data for the Maryland public schools. School systems reported individual student-level data that were edited and aggregated to school system and state levels. The report categorizes data by race/ethnicity, gender, and grade level. In September 1998 there were 431,396 male students and 410,275 female students in membership. Enrollment has increased since 1990, and 57% of Maryland's students are in the elementary grades. The enrollment increased in 1998 in all but six of the state's school systems. Since 1990, the percentage of minority students has increased from 38.9% to 44.9%. In conjunction with increases in student enrollment, the number of schools has also risen, from 1,217 in 1990 to 1,326 in 1998. Twenty-eight tables contain data about Maryland's enrolled students. Introduction

Since 1990, enrollment has increased from 715,000 to over 841,000 students in Maryland public schools. Fifty-seven percent, 481,000 students are enrolled in elementary grade levels (grades prekindergarten – 6). The enrollment in jurisdictions increased since last year, with the exception of six school systems: Allegany, Dorchester, Garrett, Kent, Somerset and Baltimore City.

This report presents enrollment data as of September 30, 1998. School systems reported individual student level data which were edited and aggregated to school system and state levels. This report categorizes data by race/ethnicity, gender, and grade level.

There are 431,396 male students and 410,275 female students in membership. The percentage of male versus female enrollments has not changed since 1990 data were reported.

Since 1990, the percentage of minority students attending Maryland public schools has increased from 38.9% to 44.9%. Figure 1 summarizes the race/ethnic categories by percentage of the total enrollment in 1990 and 1998.

Figure 1. Enrollment by Race/Ethnicity

Race/Ethnicity	1990	1998
American Indian/Alaskan Native	2%	3%
Asian/Pacific Islander	3.5%	4.0%
African American	32.9%	36.6%
White	66.1%	55.0%
Hispanic	2.3%	4.0%

In addition to the increase in number of students enrolled, the number of schools has also risen. September 30 enrollment was reported for 1,326 schools in 1998 compared to 1,217 schools in 1990. This count does not include 29 school sites that provide instruction but that may not have students enrolled on September 30 or schools that are not considered to be home schools for attendance purposes, such as vocational-technical and alternative schools.

Schools are categorized based on the grade levels served:

- Elementary - grades prekindergarten through 6;
- Middle - grades 6 through 8;
- High - grades 9 through 12;
- Combined - grades with an overlapping combination of elementary, middle and/or high school grades; and
- Other - schools not reporting enrollment for specific grades, e.g., special education centers.
